

Cascada NN

Variety:

Foto:

Cascada NN

Cooking type:

Recommended purpose of usage:

cooking type B - predominantly firm cooking

Tuber set:

Resistance to potato cyst nematodes:

Resistance to potato wart disease:

Susceptibility to bruising:

Susceptibility to discolouration:

Susceptibility to potato leafroll virus:

Susceptibility to potato virus Y:

Susceptibility to rhizoctonia:

Susceptibility to black leg:

Susceptibility to foliage blight:

Susceptibility to tuber blight:

Susceptibility to internal rust spots:

Susceptibility to common scab:

Tuber yield:

Dormancy:

Skin texture:

Eye depth:

high to very high
